

David's Class Newsletter

Spring 2024

Teacher: David

Class team: Rebekah, Nuzhet and Isabel

Happy New Year!

After a very busy Autumn term we have a relatively short Spring term. It will, however, be busy and packed with learning activities and opportunities.

Housekeeping

It would be very helpful if children's clothing is labelled. This is especially true of items they may put on and take off throughout the day: jumpers, coats, hats and scarves.

We do have a healthy eating policy and we are a nut-free site. Please make sure that any food that children bring in is healthy and nut-free.

Thank you!

The children enjoy daily visits to the library space within school. We swap library books to be taken home each Tuesday. Please do share the books with your child.

We hope to pay a visit to the municipal library this term and look at all the facilities that are available there.

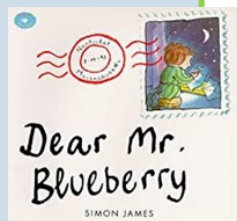

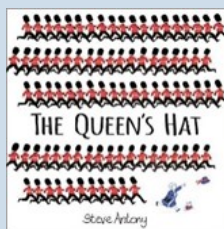

Our texts this term are:

Leaf by Sandra Diechmann

Dear Mr Blueberry by Simon James

The Queen's Hat by Steve Antony

Curriculum

This term we will be exploring many different topics.

In Science we will be finding out about the basic needs of animals and humans: air, water and food . We will link to healthy eating and food hygiene

In Geography, we are looking at a contrasting non-European country, finding out about climate and human Geography

In Music we will be exploring rhythm and tempo, focussing on percussion and using Garage Band on the i-pad

In Art, we will have fun with the food art, looking at the work of artists like Giuseppe Arcimboldo
